PrEP Aware Week 2023

About the 2023 Campaign

PrEP Aware Week, 2023 is a public education campaign supported by the New York State Department of Health (NYSDOH) AIDS Institute. From **October 23 – 29, 2023**, a host of in-person and virtual events and activities will occur, with the objective of boosting awareness and knowledge of PrEP (Pre-Exposure Prophylaxis), among priority populations, as a highly effective HIV prevention method.

The theme for PrEP Aware Week 2023 is **“PrEP is for Every Body”** which references two social movements: **sex positivity**, which acknowledges sexuality as a natural and healthy part of human experience; and **body positivity**, which celebrates all bodies, regardless of size, shape, skin tone, gender, and physical abilities.

The **“PrEP is for Every Body”** campaign features images and videos of eight community ambassadors from across the state. Collectively, they reflect the spectrum of people who can benefit from PrEP.

The Official Campaign Website is PrEPforSex.org

How to Participate

This toolkit includes everything that you'll need to participate in PrEP Aware Week 2023. We've included a variety of social media messages, graphics, and videos on PrEPforSex.org for you to post on your personal and organization's social media channels. We have messages that correspond to each ambassador as well as broader messages about PrEP.

This year's theme **“PrEP is for Every Body,”** is a multi-meaning message, that celebrates healthy, pleasurable, and responsible sexual relationships for literally “every BODY.” We invite you to share your story to amplify the message to reduce stigma. Remember to use the official campaign hashtag: **#PrEPAwareWeek2023** to get the word out about PrEP for HIV prevention.
